

MAS has it covered

With operations throughout Singapore, Thailand and Australia, MAS provides scaffolding and associated services to the Oil & Gas, Petrochemical, Power Generation and General Process sectors.

A part of AusGroup since May 2009, MAS has the financial and technical resources, together with the required personnel, to undertake projects of any scale and complexity, delivering savings and the right outcome for your project.

Our capabilities include:

- Scaffolding design, erect and dismantle for all project types
- Industrial painting, protective coatings and blasting services
- Hire and sales of all scaffold equipment and tools
- Maintenance services
- Industrial thermal / acoustic insulation and cladding
- Planned and emergency shutdown
