BEYOND YOUR EXPECTATIONS

What defines Dyna-Mac? A passion for excellence.

It is our passion for excellence that drives Dyna-Mac to surpass the expectations of our stakeholders, from customers and business partners to shareholders, each and every time.

Dyna-Mac is one of the world's leading players in Engineering, Procurement and Construction (EPC) services for Onshore Modular Plants (PAU & PAR), as well as Offshore Topsides Modules, Special Offshore Structures and other Subsea products.

Water Treatment & Cooling
Heating Medium

Dyna-Mac has successfully completed more than 290 units of Offshore and Onshore Modules for projects locally and internationally. All the projects were delivered on schedule with a very high degree of quality and safety, to the full satisfaction of all its global customers, including FPSO Owners, Facilities Owners and Oil Majors. In Singapore, its yards have a combined output capacity exceeding 25,000 tonnes per year.
